Opening diameter: 2–3 cm

Half-Liter Bottle (0,5 L):

Height: 16–18 cm

Diameter: 6–6,5 cm

# Plate number cover

The Technology Company for the Production of Plastic Materials and Sanitizers manufactures high-quality plate number covers for vehicles. These covers are designed using durable plastic materials to provide long-lasting protection and an attractive appearance. With advanced manufacturing techniques and strict quality standards, the company ensures that each plate number cover meets customer needs and withstands various weather conditions.

Our company is a leading technology-driven manufacturer specializing in high-quality plastic products. Our factory is equipped with modern, fully automated machinery designed to ensure precision, efficiency, and consistency throughout the production process. Strict hygiene and cleanliness standards are maintained across all areas of the facility, ensuring a safe and spotless manufacturing environment. Among our signature products are microwave-safe plastic plates, engineered to withstand high temperatures while offering a stylish and aesthetically pleasing design. With advanced technology and a commitment to cleanliness, our factory delivers plastic products that combine durability, safety, and visual appeal.

## Our Certificates

Technology Company for the Manufacturing of Plastic Materials and Disinfectants has obtained several important certifications that reflect its commitment to quality, safety, and excellence. One of its most notable achievements is acquiring the ISO 22000 certification, which demonstrates the implementation of an advanced food safety management system and adherence to international standards. This certification highlights the company's dedication to producing safe, reliable, and high-quality products that meet the needs of both local and regional markets.

In addition to ISO 22000, the company holds approvals from several reputable regulatory and inspection bodies in the region. These include certifications from the Jordan Food and Drug Administration (JFDA) and the Saudi Food and Drug Authority (SFDA), ensuring full compliance with recognized standards and regulations. The company has also been evaluated and certified by Middle East Inspection Services, further strengthening customer confidence in the quality and safety of its products. Together, these certifications reflect the company's strong reputation and its ongoing commitment to the highest industry standards.
